## **Background**

The FAA published a notice (68 FR 64730, November 14, 2003) proposing to issue regulations governing the design, maintenance, and operations of airplanes and engines for flights that go beyond certain distances from an adequate airport. The notice provided for a 60 day comment period, ending on January 13, 2004.

## **Extension of Comment Period**

In accordance with § 11.47 of Title 14, Code of Federal Regulations, the FAA has reviewed the petitions submitted to the docket by several commenters requesting an extension of the comment period to Notice No. 03-11 (68 FR 64730). These petitioners requested an extension of time to adequately respond to the notice of proposed rulemaking. To allow additional time for a more thorough review of applicable issues and drafting of responsive comments, the FAA finds that there is good cause and it is in the public interest to extend the

comment period for an additional 60 days beyond the 60 days already provided. Accordingly, the comment period for Notice No. 03-11 is extended until [*Insert date that is 60 days after January 13, 2004*].

Issued in Washington, DC, on December 31, 2003

Acting Director, Flight Standards Service.
